The domain is located in Brasov county, on the Rucar - Bran corridor, in the area of ??the famous Castle of Count Dracula, also known as Bran Castle. In all this area there are European asphalt roads and county asphalt roads both from Bucharest, Brasov, Campulung and from Sibiu.

The Rucar - Bran mountain corridor is an area located at an altitude of 1400 m, which separates the mountain massifs of Bucegi and Leaota, from Iezer and the Piatra Craiului Mountains. The corridor is crossed by the transcarpathian road with many serpentines DN73 / E574, which connects Brasov with Campulung Muscel and which passes through the two localities that give it its name Bran and Rucar. It captures along it, among others, many tourist attractions of the area such as: Piatra Dracului - surprising limestone sharpening, Gorges and Dambovicioarei Cave, electrified cave or Bat Cave from Pestera village and many others such as Rasnoava fortress and Bran Castle (Castle of Count Dracula) which is the most famous tourist attraction located along the Rucar Corridor - Bran.

The opportunity is great considering that in autumn the airport in Brasov is expected to be put into use.
