Metalworking

On behalf of our client, we are looking for a buyer for a company in the field of toolmaking in the context of a company sale. The company manufactures tools made of steel and carbide. There are only a few companies operating in this niche, although the customer spectrum is large. The end products are used in many industries.

Due to the many years of activity in this field, it has a lot of experience and is considered a manufacturer of high-quality tools with a service life.

Flat hierarchies and the development of a modern ERP system ensure the know-how for the future. Many processes and procedure descriptions are stored in the ERP system.

The company achieves a turnover of around EUR 6 million and is well equipped in terms of machinery and personnel. The strengthening of sales in and for foreign countries could provide further good impetus.

The company is based in the middle of Germany with good transport connections.
