Look for Corporate participation, firm participation

Property Management

With many years of experience in the real estate industry, I am looking for a participation and/or takeover in a real estate management company.

I bring contacts, especially in the field of commercial/industrial real estate. This is where synergies can be created and your company can be further expanded.

I don't see myself as an active person (unless desired), but rather as a silent strategist in the background.

All contacts remain confidential.

Best.
