Eventmanagement

We are owner of a Restaurant (400m2) and big Garden (6000m2) 30km from Berlin. It is very nice garden with big potential for Events, Party, Wedding... We work long time in Restaurant and Catering, but we don't have experience in Event Management. The restaurant needs refurbishment and renovation

Now we are looking for a business partner, who have idea, experience and money to bring into our project. We can together with an architekt to make a project for big events there
We are sure that the project will be successful

We are happy if you are interested in our project
