Offer Corporate sales, firm sales, sales

## **Retail - Emobility**

We are a leading specialist retailer for e-mobility in Germany and offer our customers high-quality products and first-class service. Now we want to concentrate on our franchisees and therefore sell our flagship store in Düsseldorf city centre.

Our flagship store is the perfect location for anyone who wants to get into the e-mobility business or already has experience in this area. The store is modernly furnished and offers a spacious sales area where customers can discover the latest products and technologies. In addition, the shop has a workshop for repairs and maintenance.

The store is already completely furnished and ready for immediate operation. Last year, a turnover of € 286,924 was generated. This year already 82.860 €.
