## Look for Commercial rental and leasing **Pension**

As a graphic designer with commercial training and over 20 years of experience as an assistant in various offices in the real estate and construction planning industry, I would like to take the step into self-employment: All in all, I enjoy the personal exchange with other people the most. I have a feel for spaces and moods and am fast and reliable in organizing and dealing with information. What I am missing is an object near my beloved Rhine, which I can initially manage on my own or with only a part-time employee.

Low equity for manageable redesign work as well as experience as an Airb'n'b "Super Host" available. Rent/lease preferred.

[Commercial rental and leasing](#)

Region 56, Germany

Entry in own name
