## Look for Corporate follow-up, firm follow-up, follow-up **Certification company**

We operate an engineering office in occupational safety and environmental protection and prepare certifications according to current ISO standards.

However, since we want to enlarge our office or jump from the preparation to the certification page, we are looking for an accredited certification company for the common DIN ISO standards 9001 , 14001 , 45001 , 50001 , 27001 but also for further certifications for the further development of our office.

Gladly in the area of East Westphalia, but a larger radius is also possible.

### Succession

Region 33, Germany

Entry in own name
