Toy trade

We are looking for a buyer or an investment for our shop and online shop with a unique selling point.

Economically, the store has a lot of potential to open more stores. Contacts are also available to expand as a B2B dealer. At the moment there are two of us, my wife and I. I myself still have a main job.

Unfortunately, we don't have the necessary resources and time, so we need the support to drive the business forward.

If you are seriously interested, please contact us with proof of capital.
