Offer Corporate sales, firm sales, sales **Online tutoring platform**

Our company was founded in with the aim of providing students with individual support in their learning process. The high demand and success of our pedagogical approach led to rapid expansion. Within the first two years, we were able to successfully establish two more tutoring institutes.

In , we introduced the Tutoring Field Service Program, where our qualified teachers deliver classes directly at the student's home. This allowed us to reach even more students and respond individually to their needs.

In , we expanded the tutoring field service program and gained our first partner with our own location. As a result, we were able to expand our range regionally and offer our services in an even more targeted manner.

In , our online tutoring started throughout Germany.
