Business for sale more than 15 years

ID 24562

Look for Corporate follow-up, firm follow-up, follow-up **Glass and building cleaning, hotel cleaning**

Our company:

We are a broad-based building cleaning company, as well as a hotel cleaning facility in Nuremberg and would like to grow even more.

Our focus is on glass, basic and special cleaning, as well as construction cleaning and more special types of cleaning, such as disinfection and crime scene cleaning.

We want to expand. We want to grow. We hope to expand our customer base. We don't want to block our liquidity, but we still want to create a win-win situation.

Our idea:

We acquire your building cleaning company with the intention of maintaining and expanding it in the long term.

You sell your company to us and we look after and take over your customers. We take care of the operational and strategic aspects for you. Profits from your customer base will be shared with you as long as we have not yet paid for the purchase in full.
