Offer Geschäftsidee, Geschäftsmodell **E-Commerce Toys Online Retail**

Originally, I wanted to run a company (in this case a UG) in addition to my sole proprietorship.

For private reasons, however, I would like to sell them again. First of all, I would like to say a few words about what kind of toys are involved. This business concept refers to clamping devices from alternative manufacturers, mainly from China.

My UG does not employ any employees and has not generated any sales in 2023. There is currently already an online shop that would be ready for sale. The plan would have been to sell on eBay and through the online shop. In addition, a newly established Kaufland account would also be available. The potential is certainly even greater, because there are also other platforms, such as Amazon, OTTO, etc., where you could offer these products.
