Agriculture

The entire farm covers an area of 870 hectares of own agricultural land, of which 690 hectares are owned and 180 hectares are leased.

A poultry complex consisting of two buildings, each divided into two parts. The buildings have a gross area of approx. 3,700 m². The poultry complexes are new and have been in operation for about 2-3 years.

Grain storage facilities with integrated feed production plant.

Agricultural machinery according to the list

The stables with an area of about 5,000 m². Renovation is being planned. This includes the replacement of the roofs and the installation of new technical systems. All plans for these measures have already been drawn up and approved, and the necessary building permits have been obtained. This means that the renovation can begin in the near future. After completion of the renovation, it is planned to keep 500-600 cattle.

A poultry slaughterhouse with a capacity of about 500-700 birds killed/hour.

Animals: The farm's own livestock consists of 107 beef cattle of the Limousin breed. The entire herd was purchased only a year ago and comprises a total of 105 cattle. In addition, two breeding bulls from Germany were purchased.
