Offer Corporate sales, firm sales, sales

Taxi

For sale is a successful taxi company with two locations in the Ulm / Stuttgart region. Thanks to the general partnership with a health clinic, ambulance and dialysis trips are possible. In addition, courier and courier services, airport transfers and other types are also offered. At 20 kilometres, the average distance of a journey is above average. This results in an average turnover of about 45 euros per trip.

The well-maintained vehicle fleet and customer base make this opportunity attractive for an expansion of an existing company in the region as well as for start-ups.

The smooth transition is made possible by the cooperation of the current owner.
