

The big business marketplace

Business for sale more than 15 years

ID 24993

Offer Corporate sales, firm sales, sales

Service provider for app-based outdoor activities

The company to be sold is a young company that has already made great strides in growth in just a few years and has thus been able to inspire top-class customers and customers.

The company offers public and municipal customers a digitally controlled service from the leisure sector and thus sees itself as a SaaS company including the hardware necessary for leisure time.

Various variants of takeover or participation are conceivable.

The company offers public and digital sharing stations for sports equipment, which are set up at municipal outdoor gyms, parks, sports fields, hospitals, schools, universities, etc.

Access to the play and sports equipment is via a self-developed app, which serves as a digital key and personalized user account.
