Look for Corporate sales, firm sales, sales **Accounting Office**

I am looking (or surroundings) for an accounting office including infrastructure for sale. The price should be realistic and depending on the customer base and turnover, you can set a sum. As an alternative, I would also offer to pay salary to the transferor on an ongoing basis (contractually fixed, notarized, so that the collateral for the transferor is given).

Companies such as tax consulting, business consulting with accounting services are also welcome.

I would be very happy about offers or contacts.
