

# The big business marketplace

Business for sale more than 15 years

---

ID 25249

## Offer Corporate sales, firm sales, sales **Butcher's shop / butcher's shop**

For sale are 100% of the shares in an established and profitable traditional butcher's shop with sales at weekly markets in high-income conurbations in Lower and Upper Bavaria. Some markets have been represented for several decades, and the concessions for these markets sometimes have waiting lists for years.

Production takes place in a production facility of approx. 600m<sup>2</sup> with expansion possibilities. The building, which is around 10 years old, was planned by an architect specialising in butchers. The entire machine and vehicle fleet is from premium manufacturers and has always been maintained, so there is no investment backlog. There is still significant growth potential, for example in the direction of Austria and increasingly also in Lower Bavaria. On the part of production, the additional capacities can be managed for this, while additional personnel would be needed for sales.
