Offer Corporate sales, firm sales, sales

Online shop for motorcycle accessories

As part of an asset deal, we would like to part with one of our two online shops and the products sold through them in order to concentrate fully on our core business again.

The online shop offers products from our own development and production for various models from Harley, Honda, Kawasaki, Suzuki, Yamaha and Indian. These are unique on the market, which allows for a very good return.

The online shop has been in existence since and has been running on the current platform (Shopware) since 2022. This is professionally and fully responsive. The processes are automated, so that sales and shipments are carried out with very little effort.

The assembly of the products can be carried out in-house or by appropriate contract manufacturers.

The online shop is sold with the associated brand and stock, so that uninterrupted continued operation can be guaranteed.
