Trade Esoteric

I am a medium, 77 years old, pensioner and two years ago I fell ill with cancer and had a successful operation.

I have been working in the esoteric field for over 30 years and am now looking for ladies and gentlemen who want to enter the esoteric industry with dedication and enthusiasm.

Beginners are just as welcome as experienced ones.

My wish is to gradually hand over the individual areas of my work to worthy successors.

This will not be done free of charge, but the financial aspect is not in the foreground.

Rather, what counts is the will to succeed, a spiritual disposition and the willingness to work with a lot of energy and vibrations.

I look forward to receiving your applications.

Please only get in touch if you want to act out of deep conviction and not out of a quick pursuit of profit.

The conviction and commitment to continue this work are crucial.
