Look for Corporate financing, investor **Pharmaceutical products**

Dear interested party,

In this way, I am looking for investors for a business idea that I would like to bring to the pharmaceutical market first in Germany and Europe and later worldwide.

It is a globally unique concept of medicines and dietary supplements that is specially designed for patients after severe illness, chemo/radiotherapy and post-Covid/Long Covid.

All patients as well as pharmacies, hospitals/hospitals, doctors' practices, alternative practitioners can be considered as end customers.

The required investment amount is \hat{a} ,-850,000. This capital covers all machine purchases, the application and the costs for the first year.

According to my forecasts, this concept will experience a strong influx of all age groups and achieve large margins.

Have I piqued your interest? Then I look forward to hearing from you.

Capital

Region 64, Germany
