Online Language School - German for Spanish Speakers

Established online language school is looking for new momentum

I would like to hand over my online language school to new hands. It was founded in Spain (Galicia) and specializes in teaching German to Spanish speakers. The focus is on teaching young adults who want to work in Germany, Austria or Switzerland.

Due to COVID and the resulting changes in student habits, we switched to online-only operations in 2020 thanks to Moodle and Zoom. This also makes it easier to find good teachers who can give the courses anywhere.

The school has received many positive reviews over the years, which will be very helpful in a revival. The learning method of explaining German grammar in Spanish ensures quick success and was appreciated by the students.
