

The big business marketplace

Business for sale more than 15 years

ID 25682

Look for Corporate participation, firm participation

Market

I am looking for market access. We are manufacturers for niche markets: rail, caravan, military and medical technology. In order to achieve further sales, we are looking for market access. We have an in-house product development, metal production, foaming and upholstery, and we also have extended workbenches to be able to build up larger quantities.

I would be happy if I could find ways to further increase our sales through a collaboration, a purchase.

I would be happy to receive feedback

Friendly greetings
