## Offer Corporate sales, firm sales, sales **Solar**

Hello,

In 2023, I founded the company . Through various channels and strategies, I successfully generated customers and connected them with local electrician companies. I had commission agreements in place with these electricians, which I invoiced after the solar systems were completed.

Over the past few months, I deliberately scaled back the marketing activities as I've made a complete career shift.

Since I won't be using this company name in the coming years, I've decided to sell the company name, logo, and website altogether.

Maybe you're looking to break into the solar industry – this way, you won't have to spend time coming up with a brand name. The fact is: this name works.

The website will, of course, be fully transferred to you, and my web designer is happy to assist with any small adjustments free of charge.

I believe the price is fair – and if you check other listings, you'll probably agree.

Feel free to reach out if you're interested, and we can exchange ideas!
