We offer a lucrative side business because we are starting a new business and we don't have time for it anymore. We build moss pictures for business and private customers in the high-price segment. You take over our brand, website, references, raw materials (last stocks worth about 3000€), suppliers, all our knowledge and social media presence. There are no employees and there are no noteworthy fixed assets.

We are looking for someone who, in the best case, has a free space, is a bit creative and comes from the surrounding area of Dresden.

The turnover is currently between 15 and 20 thousand euros, and the trend is rising.

Currently perfect for 1-2 people.
