Baby Shop

Sell my online business to a person who may already have experience in online trading or has already registered a business and needs a second mainstay. The shop is also suitable for housewives and mothers who want to work from home. In any case, it should be someone who can make friends with the products (plush toys, toys, small furniture) for small children and who also puts some heart and soul into the work. It is dropshipping without warehousing. The turnover is sufficient for a second mainstay, about 1,500 euros per month. No further fixed costs
