Building Cleaning

Dear entrepreneur,

I am looking for a building cleaning company on behalf of you.
We know how difficult it is to part with a company in which you have invested a lot of heart and soul.
The number of employees should be between 10-200 employees and it is very important to us to take them on, because they are instrumental in the success of the company.
Due to the skills and qualifications of my client, I am convinced that your company will continue to be run successfully.

I would be very happy to hear or read about you
