## Offer Corporate sales, firm sales, sales **Archiving Office**

For 21 years, our business model has consisted of two separate business units that are operated in parallel.

For 21 years, we have been successfully renting out complete offices, conference rooms, telephone service, business addresses, which make everyday office life easier for every independent entrepreneur.

For over nine years, we have successfully built up a second pillar in the digitization and archiving of a wide variety of documents. These include sensitive official documents, personnel files, construction files, immigration office, etc. We digitize historical cultural assets such as books and archival materials for state archives. The relevant customer and target groups include municipalities, archives, dioceses and medium-sized companies that use our services nationwide. The necessary certifications (ISO9001-20215, 27001 and prequalification) are available and up-to-date.
