## Offer Corporate sales, firm sales, sales **Tour operator**

Tour operator for individual tours with a focus on Asia

My company has been successfully operating as an online tour operator (location-independent) for 20 years. Due to my age, I am planning to sell by the end of 2025/beginning of 2026 as a tour operator with a focus on Asia, I specialize in the flexible planning, organization and implementation of tailor-made, privately guided individual tours. All feasible customer wishes are taken into account: Nothing is impossible. About 30% of our customers book with us again. The current focus is on individual trips to Japan.

Marketing takes place exclusively via the Internet via a professionally designed and extensive homepage, supported by social media presence on Facebook and Instagram. We have been working with most of our experienced and reliable partner agencies/DMCs in the target countries for many years.
