

The big business marketplace

Business for sale more than 15 years

ID 26060

Look for Corporate sales, firm sales, sales

I&C technology, control cabinet construction, electrical engineering

We are looking for an established company in to take over in the field of electrical engineering or electromechanics – preferably with activities such as:

- Control cabinet construction
- I&C technology
- Switchgear construction

The takeover of the existing team is expressly desired, as the preservation of know-how and continuity is particularly important to us

If you are thinking of a succession solution or would like to hand over your company to trustworthy hands, we look forward to hearing from you.

[Corporate sales](#)

Region 13, Germany
