Look for Corporate follow-up, firm follow-up, follow-up **Electrical engineering**

Are you looking for a dedicated and qualified buyer for your electrical company? Then you should take a closer look at this exclusive opportunity.

****About me:****

I am a highly qualified electrical engineer with a completed apprenticeship as an electronics technician for devices and systems. My professional career is characterized by years of experience in management positions and in-depth expertise in electronics development. I bring not only technical know-how, but also the passion and commitment to value an existing company and at the same time lead it into the future with innovative ideas.

****My motivation:****

My biggest motivation is to celebrate the values and heritage of your electrical company, while bringing a breath of fresh air through new ideas and innovative technologies.
