### Forwarding

Dear freight forwarders,

If you have been thinking about opening a logistics center in Austria (Vienna or Linz area), then I could support you.

In the past, I have already been able to set up a branch for various freight forwarders, including freight forwarding offices & warehousing locations.

I have already been working in the freight forwarding industry for 15 years and have already been able to hold management positions at well-known freight forwarders.

What can I offer you:

â€¢ A good national and international network.

â€¢ A good network of customers

â€¢ At the beginning, an operational scheduling team can already be starting with a customer base

â€¢ In addition, a sales manager on a full-time basis or on a fee basis.

â€¢ Warehousing customers available.

If you are interested, I would be happy to receive your message with contact details.
