E-bike battery repair shop

We offer a highly profitable and growing e-bike battery repair business for sale – perfectly positioned in a future-proof growth market.

Particularly attractive: Around 90% of customers come via online channels, which means that operations can be run from anywhere – ideal for location-independent entrepreneurs. Our loyal clientele – private e-bike riders and dealers – ensures stable orders, while the increasing demand for battery repairs and service continues to grow.

The operation is fully set up, with all tools and supplier relationships – ready for a smooth transition and further expansion.

In addition, there are instructions for the repairs in the form of a video course.
