Property management

Your life's work in good hands – Together for a strong future for real estate management

Have you built up your property management with passion and are faced with the question of what to do next?

Whether it's a lack of succession, a growing shortage of skilled workers, increasing digitalisation or regulatory challenges: we know how challenging the future will be in real estate management.

We are a young, growing company that takes over, integrates and develops property management companies in the long term.

Our goal: to preserve existing structures and local expertise – and to strengthen them through modern processes, technology and group-wide synergies.

- Fair and attractive purchase price
- Trustful, discreet handover process
- Appreciation for your team and customer relationships
- Option to participate or accompany in the transition phase

We are looking for established property management companies with local roots and high quality standards.
