

The big business marketplace

Business for sale more than 15 years

ID 26274

Offer Corporate sales, firm sales, sales **Online trade**

Established niche online shop with growth potential (asset deal)

For sale is a niche online shop that has been successfully active on the market for several years with a strong customer base, automated processes and a proven product strategy.

The operation is completely location-independent, with little time expenditure (approx. 8-12 hours/week) and can be easily managed by 1-2 people. The technical basis consists of a modern ERP and shop system with an existing connection to common marketplaces.

Sales in recent years have been stable in the range of over â‚¬350,000/year. The current inventory is strategically aligned with the upcoming high-turnover phase. The business model is profitable, although in recent years targeted reinvestments have been made to scale.

The handover will take place as part of an asset deal, including structured induction.
