Production and online of custom-fit car sunshades

For Sale: Profitable Manufacturing Company in the Automotive Sector – Unique Product, Strong Brand, Huge Growth Potential

Are you looking for a proven and profitable investment in a growing segment of the automotive market?

Here is your opportunity: a dynamically developing manufacturing company specializing in the design and production of custom-fit sunshades for passenger cars and vans.

We have been operating continuously since .

As one of only three manufacturers in the European Union, the company has a niche but steadily growing market, an established brand reputation, and an extensive sales network across Europe.

Key Figures:

- Industry: Automotive / Car Accessories
- Annual revenue: approx. EUR 500,000–700,000
- Product range: approx. 300–350 sunshade models, continuously expanding
- Team: 7 qualified, full-time employees

Stable Infrastructure and Assets:

- Plot: 2,800 m² with expansion potential, 2 buildings – value approx. EUR 300,000–400,000
- Fully equipped machinery park, including:
 - ?? 2 CNC bending machines
 - ?? 2 wire welding machines
 - ?? Modern sewing department (10 machines + cutting room)
 - ?? Warehouse: approx. 5,000 ready-made sets – stock worth approx. EUR 300,000
- Vehicle: Mercedes Sprinter
- Office and storage containers worth approx. EUR 35,000

???? International Sales and E-Commerce:

- 5 fully operational online stores, including:
 - ?? 2 stores serving customers in 10 languages – 1.6M annual views
 - ?? 3 domestic stores – approx. 650K views
- 1 international online store under development
- ?? Over 16,000 active customers
- 17 unique international domains – a ready base for further expansion
- Excellent sales accounts on Ebay, Allegro, Aukro with top customer ratings

???? Additional Services:

The company also provides CNC wire bending services, enabling flexible use of the machinery and opening additional revenue streams.

Why is this a ready-to-go investment?

- ? Niche and recognizable product – limited number of competitors in the EU
- ? Profitability and optimized production – margins and processes fully under control
- ? Ready infrastructure and high-value inventory – you invest in tangible assets
- ? Well-developed and profitable e-commerce – over 2.2M annual views
- ? Huge scaling potential – new models, new markets, B2B and wholesale sales
- ? Established customer base and strong brand – stable revenue from day one
- ? Numerous inquiries for cooperation and contract manufacturing – potential in the OEM sector
