Echtzeiteinkauf

The Vision

Echtzeiteinkauf ("real-time shopping") is building a hyperlocal delivery platform that allows customers to shop in real time from trusted, nearby retailers — not just supermarkets, but bakeries, pharmacies, organic stores, craft businesses, and more.

Our mission is to digitize local commerce and enable same-day delivery without relying on dark stores or central warehouses.

???? The Problem We Solve

Major platforms like Amazon and major grocery chains dominate the online delivery space, leaving small, local businesses behind.

Echtzeiteinkauf empowers local retailers to compete digitally, by providing them a platform and unified delivery service — with better margins, local visibility, and customer proximity.

???? What Makes Us Unique

Real-time shopping from local businesses across sectors, not just food

Same-day delivery without owning inventory

B2B partnerships for logistics & operations

Scalable model to expand city by city across the DACH region

Strong focus on sustainability, local value creation, and fair pricing

???? Current Stage

MVP in development (mobile + web)

Initial partnerships with local businesses in Nuremberg

Crowdfunding successfully completed (late 2024)

Logistics pilot phase planned for Q4 2025

Local stakeholder support and strong media interest

???? Investment Opportunity

We're seeking €300,000 as equity or convertible loan to fund:

Final development and launch of our platform (tech, UX, backend)

Local logistics model & driver/partner operations

Marketing and B2B onboarding (retailers & artisans)

Hiring key team members (tech, sales, operations)

Offer

Equity range: 10–20%, depending on contribution and strategic alignment.

We welcome both silent partners and active investors with relevant networks or expertise.

???? Target Investor Profile

Impact-driven business angels

Strategic investors in retail, logistics or local commerce

Family offices focused on digital & regional growth

Investors passionate about sustainable urban innovation
