Wholesale and retail trade of personal protective equipment

We are selling our established and successfully run wholesale and personal protective equipment (PPE) company, which has been in the wholesale and retail business for 15 years.

Our annual turnover is currently around 400,000 EUR

Our company specialises in the sale of personal protective equipment, such as safety shoes and workwear, work gloves, safety goggles, safety helmets, respiratory protection, hearing protection, disposable clothing, safety harnesses and industrial supplies.

It is a well-known and protected brand in the industry.

In the last 15 years, we have made our company name strongly known through extensive advertising measures. For example, buses with our company logo were in use, and our brand was published in many places. We have participated in various local trade fairs. As a result, our company name is now very well known as a brand.
