Look for Corporate financing, investor

Outpatient care service

We are looking for a financing partner for an innovative start-up project in the field of an outpatient care service. An attractive location offers an ideal infrastructure and high demand, which is covered by our comprehensive service portfolio. Our business model is based on holistic full care, which includes basic and treatment care as well as specialized services such as outpatient psychiatric care. In addition, we offer care-related and prescription services in order to optimally meet the needs of our clients.

Business model:

1. Strong locational advantage: We have chosen a location that impresses with its high demand density and optimal infrastructural conditions. This provides us with ideal market access and potential growth opportunities.

2. Diverse service areas: Business stability is ensured by several pillars.
