An established company based in North Rhine-Westphalia is for sale. The company operates without its own fleet of vehicles (asset-light) and is structured completely without bank loans. The company is leanly organized, flexibly scalable and has resilient, recurring customer relationships.

Business Model & Services

Asset-light approach: Transports/services are provided through a proven network of qualified partners. This means that there is no need to invest in vehicles, workshops or stand space.

Core services (example framework): Organization of time-critical transports, scheduled and ad-hoc tours, international direct deliveries, procurement and distribution logistics, if necessary storage/handling coordination via partners.

Digital & efficient: Use of standard TMS/telematics solutions, structured processes from enquiry to billing, KPI-based control.
