For sale is a franchise business right of an eco-friendly car wash concept with a fully digitalized service model.

The business operates using nanotechnology-based cleaning products, which are centrally supplied by the company, ensuring consistent quality standards. The car wash process requires only a minimal amount of water, allowing the service to be performed almost anywhere.

The operation is highly flexible:

Stationary, for example at a fixed location such as a garage or workshop

or Mobile, offering on-site services with home or customer visits

The franchise network is already established with approximately 60 active locations across Europe, representing a proven, scalable, and growing business model.

The mobile car wash units are delivered ready for operation, enabling a fast and smooth market entry.

In addition, a custom-developed mobile application is included, allowing customers to book services and enabling digital management of operations.
