Online Retail Lighting & Furnishings

For an established, profitable online trade in the field of high-quality lighting and interior solutions, we are looking for a strategic investor or operational partner with strong expertise in online marketing and shop management.

During the years, targeted investments were made in the development of an independent, stable online business. The technical infrastructure is based on its own servers, is scalable and independent of external platform dependencies. The shop has a solid sales base, clean merchandise management and well-rehearsed processes.

The business model benefits from a clear niche positioning, a manageable competitive environment and an attractive price and margin structure. The most important and common products are available in stock, and supplementary assortments are purchased directly from the manufacturer.
