Heli & Catskiing Company

Award-Winning Heli- and Cat-Skiing Company in North America for Sale

Revenue: approx. €4m | Real Estate/Freehold: approx. €6m | EBITDA (adj.): approx. €675k

For sale is an award-winning company based in North America specializing in heli- and cat-skiing. The company operates four helicopters and various snowcats, allowing for flexible mitigation of weather-related flight cancellations. It is a global market leader in luxury backcountry skiing and snowboarding experiences.

Focusing on safety, sustainability, and exclusive access to pristine alpine terrain, the company offers bespoke adventures, including private charters and corporate retreats. A significant portion of the enterprise value lies in its real estate assets, which include a luxurious 5-star lodge featuring gourmet cuisine, a spa, and world-class amenities. Additional lodges are leased; an administrative building is available for separate acquisition.

The company is characterized by long-standing profitability, extensive operating licenses (tenures), and an experienced management team. Its commitment to sustainability is underscored by partnerships with local conservation organizations and carbon offset programs.

We are seeking a strategic buyer to further develop the brand and unlock new growth prospects, ideally leveraging their own synergies.
