ID 26822

## Offer Corporate sales, firm sales, sales Service Company

For sale is an established, highly profitable premium service company operating in the experience and training segment with an aviation reference. The business model is deliberately not designed as a mass-market or standard training operation, but as a high-value specialist provider with strong pricing power and stable demand.

Services are delivered through clearly defined and standardized formats. In addition, the company offers high-margin supplementary services in the experience, event and corporate segment, supporting customer retention and recurring revenue. Operations are conducted on a supra-regional basis via multiple operational units and partner structures and are scalable.

The company has shown a clearly positive financial development over several years. Revenues increased continuously and amounted to approximately 300 kEUR, 400 kEUR and most recently 500 kEUR per year, with a double-digit profitability level.

Operations are based on a lean organizational structure with documented processes and manageable personnel requirements. The company is well prepared for transfer. A structured handover as well as a temporary transition support by the current owner are envisaged.

Further information, detailed financials and partial de-anonymization will be provided exclusively after execution of a non-disclosure agreement (NDA) as part of a structured sales process.
