

Look for Corporate follow-up, firm follow-up, follow-up

Freight forwarding, logistics, transport

I am looking for a company from the logistics, freight forwarding or transport industry to take over or actively participate as soon as possible. My focus is specifically on small and medium-sized, owner-managed businesses that are striving for a reliable and long-term succession solution.

Whether you are an established family business, a specialised transport service provider, a regional general cargo forwarder or a classic logistics company – I am expressly open to all orientations and sizes within the industry. A central concern of mine is to lead your life's work and the existing jobs into the future in a responsible and appreciative manner.

I offer you maximum flexibility in structuring the transition: from a complete takeover to a gradual investment, various models are conceivable.
