

Look for Corporate follow-up, firm follow-up, follow-up **Escort Agency**

I am looking for an existing online brokerage platform in the service sector, ideally with existing customer enquiries, a functioning website and existing structures.

A takeover including website, domain, existing content and – if available – contracts or ongoing structures is preferred.

What is important to me is a transparent presentation of the current business figures. Therefore, please indicate the average monthly turnover and, if possible, relevant key figures such as enquiries or bookings.

I am interested in a serious and speedy transaction and am open to discussions with providers from all over the German-speaking world.

Please only serious offers with appropriate information on the current business situation.

Succession

Region 80, Germany

Entry in own name
