

The big business marketplace

Business for sale more than 15 years

ID 26989

Offer Corporate sales, firm sales, sales **Online trade & production**

We are an established and successful online retailer in the field of equestrian sports accessories. We are one of the top brands in our market, which is also registered at the European level. The business can be operated from anywhere as long as there is a warehouse. The company is completely digital and paperless, so a move is no problem. Furthermore, the production plant in Spain is also sold, which is a limited liability company and is one of the largest suppliers worldwide in the field of construction site protection, sports nets and hay nets in the equestrian sports sector. The Spanish company is an S.L., i.e. a limited liability company. Both companies are legally separate and operate in the customer supplier relationship. The sale will only take place in a package with both companies. In Spain, the hall is owned by the company. The increased purchase price ensures a completely debt-free handover. Both companies are profitable above average.
