## Offer Liquidation, Operating dissolution **Motorcycle Workshop Business**

The equipment includes, among other things, three lifting platforms, a tire mounting machine and balancing machine for motorcycle and car tires, a pillar drill, various diagnostic cables from Gutmann as well as smaller diagnostic devices, flywheel pullers in different sizes, tool trolleys, and a wide range of tools and special tools including spanners, socket sets, and assorted fasteners.

Also included are stainless steel worktables, workbenches, vises, a bench grinder, a headlight alignment device, an exhaust extraction system with two connections, and an indoor air extraction system. In addition, heavy-duty mesh partition walls and storage facilities are available.

The storage area contains various wear parts for service and maintenance work. A large shipping container is also included, providing additional storage space for materials and equipment.

The sales area is equipped with display stands for operating fluids, slatwall panels for presenting clothing and accessories, helmet shelving, a seating area from a well-known oil manufacturer, and glass display cabinets. Motorcycle clothing and accessories inventory is also included.

The complete inventory is being sold, including an established customer base of approximately 2,400 customers.

This offer is particularly suitable for start-ups or for expanding an existing motorcycle business.
