## Look for Corporate financing, investor **Floristry business**

Investment Opportunity: Structured Loan in Support of an Established Retail Business

We are currently seeking an investor or financing partner for a successfully established retail concept operating in the floristry, gifting, and gourmet segment.

Since its launch in 2024, the business has developed into a functioning and market-tested retail operation with stable day-to-day trading, repeat customers, seasonal sales momentum, and significant upside potential. To finance the next stage of growth, we are offering a clearly structured loan opportunity in the amount of €5,000, €10,000, or €20,000, with a term of 12 to 24 months and contractually agreed repayment flows.

The funding will be used to strengthen and expand the product portfolio, unlock additional revenue channels, and further improve operational efficiency. The business is based on a credible commercial foundation and offers investors the opportunity to support an already established, revenue-generating, and scalable retail model.

A full investment summary, including financial key figures and detailed loan terms, is available for interested parties.
