## Look for Corporate follow-up, firm follow-up, follow-up **Educational Institute**

Dear owners,

As part of a targeted company succession, I am looking for an established educational institute to take over (share or asset deal) as a financially strong investor with in-depth experience in the management of language schools. The focus is on the continuation and strategic expansion of a location in North Rhine-Westphalia or in the adjacent catchment area.

Since I have already successfully managed a language school in the past, I am very familiar with the internal processes, quality management and regulatory requirements of the authorities. You are thus handing over your company to an industry insider.

The search profile:

We are looking for schools that have stable structures and can ideally be continued operationally immediately. Particularly relevant are:

Accreditations: An active accreditation by the BAMF for integration courses and/or vocational language courses (BSK).

### [Succession](#)

Region 44, Germany  
Entry in own name
