## Look for Corporate sales, firm sales, sales **Property management**

What we are looking for

For our expansion in , we are looking for property management companies with a focus on condominium and rental management, which have been solidly built up over the years and are well positioned in the market - with a well-rehearsed team of 10 to 20 employees and an annual turnover of between 1 and 5 million euros.

We are not interested in buying a portfolio. We want to continue to run a functioning company, with everything that goes with it: the customers, the team, the reputation that has been earned over the years. The integration into our structure happens step by step, so that nothing that has been built up is lost. We design the handover together: whether the owner lets go immediately or accompanies for a while, both are possible.

Who we are

We are a property management company ourselves, organically grown, active at several German locations.
