Offer Corporate sales, firm sales, sales

Swimming pool construction

The successful company in the field of swimming pool construction has qualified employees in project management, construction management, customer service, scheduling and administration as well as a balanced age structure without short-term retirement risks in key personnel. Long-standing supplier and partner relationships â€“ including the participation in a leading trading company â€“ ensure a stable operating basis. A structured induction by the current managing director is guaranteed. The property used for business purposes can optionally be purchased (value approx. EUR 1.5 million).

The offer is aimed at entrepreneurial buyers, investors or newcomers to the industry with a technical background who want to take over and develop an established and profitable company. Further information will be provided after signing a confidentiality agreement.
